

ABOUT OUR ATTORNEYS

Our international network of over 20,000 attorneys is professionally managed. Attorneys in our network average 19.4 years of experience. All plan-member attorneys must have a "BV" or better rating if listed in Martindale-Hubbell, provide us with a certificate of liability insurance, whether their state requires it or not, be in good standing with their respective state bar, have a law office in their respective state and carry a "Courtesy Rating" of "B" or better. In addition, Legal Club files a quarterly background disciplinary report with each state's attorney disciplinary department.

Courtesy ratings as well as background checks are done every three months. In addition, attorney firms must complete quarterly surveys reaffirming the accuracy of our database and knowledge of the plan. Besides Courtesy Rating surveys and quarterly background checks, we answer to our members. Problems that arise with a particular attorney are documented and can ultimately lead to expulsion from our network of attorneys.

Our attorneys abide by a discounted fee schedule in order to receive member referrals. For example, planmember attorneys provide Individual / Family Legal Plan members with 7 Free Services, charge a one-time fee for 8 Commonly Used Legal Services, give members a 10% discount on all contingency based cases and contract to charge no more than \$75.00 per hour for any and all extended legal care.

Legal Club of America is not an insurance company and we have no financial relationship with our attorneys. This means that all of our legal plans have no exclusions, limitations, claims, or red tape. We provide the only legal plans in the country offered in all 50 states, Puerto Rico the U.S. Virgin Islands and China with the exact same benefits in all. Our members are entitled to use as many of our planmember attorneys, practicing any area of law available, anywhere in the country, as often as they need. Legal Club of America is dedicated to bridging the financial and emotional gap between Americans in need of legal care and the attorneys that provide it.

Upon enrollment, our members are immediately assigned an attorney and given a welcome package. Attorney assignments are based on language spoken, area of law needed, and geographical location. Any additional attorney assignments or reassignments are given via an 800 number over the phone
